The Fair provides an opportunity for direct interaction between representatives of international universities and EPS students, with the aim of encouraging and motivating students to take part in international mobility programmes.

Students will have the opportunity to discover potential destinations first-hand, obtain information about international mobility options and joint double-degree programmes, and ask questions directly to representatives of the participating institutions.

Go abroad, discover new opportunities and open yourself up to the world!

The World Wide EPS Meeting is an opportunity to explore the possibilities offered by the EPS to complement your university education in an international environment, broaden your academic horizons and prepare for a professional future without borders.
