

World Wide EPS Meeting 2018

Presentation

Students from Polytechnic School of the University of Lleida (UdL) have participated in presentations of the mobility programs of the different international universities, as part of the third World Wide EPS Meeting (WWEPS), organized by Polytechnic School from today, Thursday, November 22nd to Saturday, November 24th.

The Polytechnic School of the University of Lleida considers the process of internationalization of the center a key aspect. On the one hand, for its own

establishment and strengthening as a reference center. On the other hand, for the professional future of its students. This process allows us to face the future with optimism and a global and open vision of the world.

In the conference presentation, the director of the Polytechnic School, Francesc Giné, defense what he considers that are the three main and strategic axes: internationalization, quality and employability so that "the future professionals who have arised from the Polytechnic School must be able to face their future job challenges with the maximum guarantees of success, understand and visualize in a global way the authentic and excellent job opportunities that are offered on a European and global scale". Furthermore, the vice rector of International Relationships and Cooperation of the University of Lleida, Mrs. Àstrid Ballesta, has emphasized the UdL's firm commitment to these objectives expressed by the Polytechnic School management and its will to continue keep betting on internationalization, in both directions, as one of the futur pillars of the University of Lleida.

Cristian Solé, deputy director of International Relationships of the Polytechnic School explains that the School objective is, in the future, to enjoy of a double international degree in each of the degrees and master's degrees of the School, recently expanded with the incorporation of the degrees offered on the Igualada campus: Degree in Chemical Engineering, Degree in Engineering in Industrial Organization and Logistics, Degree in Digital Interaction Techniques and in Computing and Master in Leather Engineering.

Nowadays, the offer of international double degrees in the Polytechnic School is:

- Double Degree in Technical Arquitecture and Edification, and Civil Engineering (VIA UC - Denmark) [[/sites/Eps/estudis/ArquitecturaTecnica-CivilEngineering.html](#)]
- Double Degree in Mecanichal Engineering i Energy and Environmental Engineering (NOVIA UAS - Finland) [[/sites/Eps/estudis/EnginyeriaMecanica-EnergyandEnvironmentalEngineering.html](#)]
- Doble Grau en Enginyeria Electrònica Industrial i Automàtica i Electrical Engineering (NOVIA UAS - Finland) [[/sites/Eps/ca/estudis/dobles-titulacions-de-grau-i-master/doble-grau-en-enginyeria-electronica-industrial-i-automa](#)]]
- Double Master's Degree in Cumputer Engineering and Computer Science (ITB - Indonesia) [[/sites/Eps/estudis/EnginyeriaInformatica-ComputerScience.html](#)]

Després d'una petita visita guiada a les instal·lacions de l'EPS i al campus de Cappont, s'ha dut a terme una presentació particular de les institucions adreçada als alumnes de l'Escola Politècnica Superior. En aquestes presentacions, alumnes de l'EPS que en aquests moments estan gaudint d'una experiència de mobilitat internacional en les universitats visitants, han explicat als assistents la seva vivència i com aquesta experiència internacional està influint en el devanir dels seus estudis i la seva vida.

A la tarda està prevista una segona presentació particular de les universitats adreçada a alumnes de batxillerat d'alguns centres educatius de les comarques de Lleida i el Baix Camp, de mans d'en Ronnie Sundsten i Roger Mäntylä de la Universitat finesa de Novia, als alumnes Cedric Ortiz, Carles Gatius i Enric Calavia, el títol del Double Bachelor of Engineering, Energy and Environmental Engineering que van cursar aquest passat curs acadèmic.

Finalment aquesta primera jornada finalitzarà amb una visita al Celler de Raimat [<https://www.youtube.com/watch?v=ZT18RkMinf4>].

La segona jornada de la WWEPS, del divendres 24 de novembre, s'organitzà tipus fira, on cada institució va muntar un stand propi on rebien personalment a tots i cada un dels alumnes interessats en la seva oferta de mobilitat i els explicaven i aclarien particularment els dubtes i inquietuds que poguessin tenir. Així mateix també es van organitzar reunions paral·leles amb els coordinadors de les titulacions de l'EPS.

Aquest acte, organitzat per l'Escola Politècnica Superior pretén, no tan sols tenir repercussió dins de l'àmbit de la Universitat de Lleida, sinó també tenir un abast més global dins de la ciutat. Es pretén mostrar que la ciutat de Lleida i el seu entorn és atractiva com a destinació d'estudiants internacionals i, a més, posseeix el potencial suficient en l'àmbit universitari, empresarial i industrial per a establir relacions amb altres institucions universitàries d'arreu del món. Per aquest motiu, aquest segona jornada finalitzarà amb una visita guiada a la Seu Vella de Lleida i una recepció oficial a l'Ajuntament de Lleida.

Tanmateix, la darrera jornada del World Wide EPS meeting, el dissabte 25 de novembre, els participants es van desplaçar al nou campus d'Igualada on, a banda de visitar les instal·lacions del campus, també van aprofitar per realitzar una visita a l'església de Montserrat, al museu del cuir Cal Granotes i van assistir a una recepció oficial per part de l'Ajuntament d'Igualada.
